Re: Locations of Domestic Wells  
RI/FS for McIntosh Plant Site  
Olin Chemicals McIntosh, Alabama  
WCC File 90B449C  
Document Control Number: WCC-222

Dear Mr. Lucas:

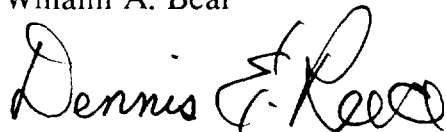

Per instructions from Jim Brown of Olin, we are sending you a map showing the active domestic wells (as marked) within a three-mile radius of the Olin McIntosh Plant Site. We plan to sample all wells that are used for drinking water contingent upon access and owner's permission.

If you have any questions concerning this matter, please contact us.

Very truly yours,

Willaim A. Beal

Dennis E. Reece
